

JESSI'S GARAGE

DOOR PULL STRAP INSTALL

BY **JUST SEND IT**
MAKE IT YOURS.

LET'S
UPGRADE
THOSE DOOR
PULLS!

1 OUT WITH THE OLD

Remove the
original door
handle
assembly.

STOCK
HANDLE?
YOU'RE
DONE. 🙌

2 KEEP THE GOLD SCREW!

You only need to
keep the original
GOLD SCREW.

Place the new
backing plate into
the hole with the
alignment marker
at the top.

**DON'T BIN
THAT SCREW!**

3 LOCK IT DOWN

Tighten the gold
screw securely.
Then thread the
cap cover over
the door pull strap.

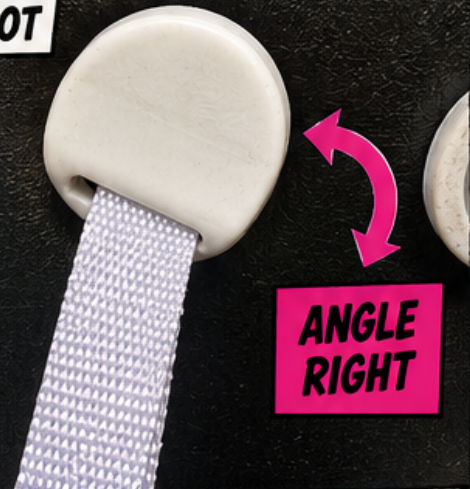

NICE AND
SNUG - DON'T
GO FULL
GORILLA ON IT.

4 ANGLE & SLOT

With the cap
angled slightly
to the **RIGHT**,
position it over
the backing
plate.

It should slot
neatly into place.

5 TWIST & DONE!

With the cap
seated correctly,
rotate it
ANTI-CLOCKWISE
until it locks into
position.

FIVE STEPS.
NEW DOOR PULLS.
MUCH BETTER.

**THAT'S
IT!**

**INSTALL
COMPLETE! ✓**
